

iTeam Training iModule #3 Understanding iTunes

In order to become certified in iModule #3 you must be able to complete the following steps. Please place a check in each box to certify that you have completed each step. You will then sign and date the module form and turn it in to a iTeam campus leader.

I know how to:

- Import a CD into my music library
- Access the iTunes store and download a song from iTunes
- Import a movie from Discovery Streaming into my movie library and format it to play on the iPad, iPod, or iPhone
- Access the iTunes store and download and subscribe to a podcast and unsubscribe
- Access the iTunes store and download educational media from iTunes U and unsubscribe
- Create a playlist for music, videos, podcasts or iTunes U media
- Add a PDF Science or SS reader to iBooks that can be viewed on my device
- Access the iTunes store and download iPad, iPod, and iPhone Apps
- Authorize a computer to play a song
- View my iTunes purchase history
- Check the box in iTunes under preferences/device to keep iPads, iPhones, and iPods from syncing automatically
- Search my iTunes library or playlists
- Setup sharing preferences for my iTunes library
- Add a password to be able to share your iTunes Library across a network
- Access and download iTunes Help to use when not connected to the internet
